

Be aware:

WE MADE THIS RUG WITH LOVE AND CARE, BUT

**it's made of/with wool and can therefore
become fluffy over time.**

Tips

- Do not pull the fluff out of the rug yourself. Let the rug do its job. Wait until the fluff and the fibres come out and then remove them.

- Remove the fibres and fluff with a special brush attachment on your vacuum cleaner or use the short tube (not the 'normal' head, which can sometimes make the fluff even worse).
