The LUMINA floor lamp is a special eye-catcher in your living area thanks to its elegant glass shades! The different shapes of the three shades and the composition of metal and glass create a beautiful and unique lighting atmosphere and breathe a modern touch into your living area. Thanks to the matt black colour scheme and the glass shades in steamed chrome, there is plenty of scope for other colours, making it wonderfully easy to integrate into existing living concepts. The use of LED light sources is recommended for energy-saving lighting. These are an ideal alternative to conventional halogen light sources and offer high light quality and energy savings of up to 80%. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
