The HELIOS pendant light will be the centrepiece of your dining area. The clear and modern lines of the light bring a stylish flair to your home, which is emphasised by the up and down lighting. As the HELIOS is height-adjustable and can be easily pulled apart, it is ideal for extendable dining tables. Another highlight is the integrated 4-fold touch function. Both the brightness levels and the light colour can be adjusted as required at the touch of a button. The matt black colour design is a real eye-catcher in your interior design concept. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
