With its five rings hanging together, the VIGO light is a real eye-catcher. With its minimalist design, the ceiling light can be used in many different rooms at any time and creates an atmospheric ambience. The luminaire also has a SWITCH dimmer, allowing the brightness to be adjusted from 100% to 50% and 25% using a conventional light switch. The modern ceiling light has a width of 90 cm and a height of 15 cm. Thanks to the anthracite colour scheme, the light can be combined with many furnishing styles. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
