A highlight in any living room! The FRANCIS ceiling light creates atmospheric lighting effects. With its modern and unusual design, the light lends your room an individual charm that will impress. The pendant light cuts a particularly fine figure above the dining table, where it is shown to its best advantage as a central element. The light also has a SWITCH dimmer, allowing the brightness to be adjusted from 100% to 50% and 25% using a conventional light switch. The ceiling light has a height of 19 cm and a width of 54 cm. Thanks to the anthracite colour scheme, the light can be combined with many furnishing styles. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
